

integraRental QuickBooks Integration

-  Sell More
-  Lower Costs
-  Improve Customer Satisfaction
-  Reduce Errors
-  Get Paid Faster

integraRental & QuickBooks work together to deliver a complete rental solution. Customer information, invoices, and hard good inventory tracking is still maintained in QuickBooks. integraRental creates invoices in QuickBooks in real time for rentals, service, and sales. Our software is not meant to replace QuickBooks, it is designed to enhance the areas of rental management that QuickBooks is not built to support.

A HISTORY OF SUCCESS WITH QUICKBOOKS

- integraRental has been an Intuit partner since 2017.
- Real-time integration with QuickBooks Online & Desktop for billing and customer information.
- Easy Installation and Setup – Setup is a breeze as integraRental pulls all saved customer information directly from QuickBooks.

HARNESSING THE POWER OF QUICKBOOKS

- Payment Flexibility - Payments received show in both QuickBooks and integraRental, regardless of where they were entered.
- Easy-to-Use Billing Features – Reoccurring billing features allow users to bill customers that are on-contract.
- Real-Time Inventory Status – Real time updated parts/products inventory management in QuickBooks.
- 5-Star Performance - integraRental boasts a long list of 5-star reviews on the Intuit App Store. Take a look today and see what everyone loves about integraRental by scanning this QR code:
