integraRental

in partnership with **RoviTracker**

RoviTracker

- **Sell More**
- **Lower Costs**
- **Improve Customer Satisfaction**
- **Reduce Errors**
- **Get Paid Faster**

Choosing a software that has a strong telematics integration is vital to success for the modern rental business. integraRental has partnered with the trusted telematics experts at RoviTracker to provide GPS tracking for your rental equipment. integraRental users can accurately capture metered hour overages on longterms billings, track dispatch trucks, and utilize accurate GPS locations for theft prevention and recovery.

TELEMATICS THAT DRIVE YOUR BUSINESS

- RoviTracker's direct integration into integraRental web and mobile empowers you to accomplish your dispatching and tracking tasks all from one convenient location.

- Automatically and remotely capture metered hour overages on reccuring billings for RoviTracker-enabled equipment, ensuring you're getting paid the proper amount, at the proper time. *(See image below)*

- Geofencing for RoviTracker-enabled equipment alerts you when assets leave a user-defined geographic area, increasing equipment theft prevention.

Pictured above: remote metered hour overage display and capture feature for RoviTracker-enabled equipment.

- Assign RoviTracker devices to equipment or dispatch trucks, track them in both the web and mobile apps, and ensure you know where your assets and crew are, at all times.

- Access routing directions to where your equipment is from within the integraRental mobile app, utilizing either Google Maps or Apple Maps.
